DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 20 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: Furukawa et al. in US Patent Application Publication 2006/0060562 discloses most of the invention. However, Furukawa does not disclose, teach or suggest forming a conformal layer over the set of pillars, the conformal layers having a top portion on the pillars, sidewalls adjacent to sides of the set of pillars and a horizontal portion extending between members of the set of pillars disposed directly on top of the protective layer; removing at least the top portion of the conformal layer; removing the set of pillars, whereby the protective layer in location beneath the set of pillars is exposed. Furukawa first etches the protective layer, prior to forming the conformal layer. Therefore the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
